## PROFESSIONAL SUMMARY

Operations and data professional who processes invoices and documents accurately and builds small tested tools to automate the same work: 6+ years of work experience in invoice processing, data entry and customer service, including 2+ years of remote work for US and UK companies. English C1. Independent contractor (Polish sole proprietorship, JDG), seeking full-time work (8 hours a day) in US and European time zones, ready to start immediately. Looking for a long-term engagement (a year or more).

## KEY ACHIEVEMENTS

- Processed roughly 800-1,200 invoices and other documents per month, full-time (Seeq, US company, remote from Poland).
- Prepared and checked invoices and documents for a hotel and wedding venue hosting about three events a week (100-130 guests each), working with the company's accountant.
- Handled 80+ live chats or 100+ phone calls per day in a call center (T-Mobile, in Polish).
- 2+ years of remote work from Poland for a US and a UK company (Seeq, Cuvva).

## KEY SKILLS

Invoice and document processing • Data entry and record maintenance • Reconciling invoices with payments • Financial documentation and settlement records • Document checking and quality control • Writing procedures and process documentation • CRM record upkeep • Written communication

Tools: Fakturownia, Excel, Word / PDF, hotel and accounting systems, CRM, AI tools (to draft and check work; every result reviewed by me)
Programming: Python, SQL, Java, JavaScript, PowerShell, REST APIs, Git, pytest

## PROFESSIONAL EXPERIENCE

### Freelance Programmer (part-time) | Independent commissions

*Feb 2022 - present - Remote*

- 300+ projects for individual clients (OLX, online groups), 500-2,000 PLN each: building code and software, websites, chatbots, scripts and automation, bug fixes, code and security checks.

### Hotel Manager (invoicing and administrative responsibilities) | Diament, family-owned hotel and wedding venue (accommodation, wedding hall, special-occasion events, restaurant, catering)

*Jul 2024 - Sep 2026 - Rudniki, Poland*

- Worked in a hotel and wedding venue with a hall for up to 300 guests that hosted about three events a week (weddings and other special occasions), each with 100-130 guests and around 70 overnight guests.
- Arranged wedding and other event bookings with clients: agreed what, how and when, and finalized every detail of each event.
- Issued an invoice for every event (about 12 a month, about 40 in May); prepared, checked and processed invoices and documents in cooperation with the company's accountant; entered and updated data in internal systems.
- Compared invoices with bank transfers and verified that amounts matched; kept billing, payment records and settlements in order.
- Reviewed documents for completeness and accuracy and maintained orderly financial documentation.
- Wrote and maintained internal procedures; coordinated day-to-day operational tasks.

### Finance Assistant | Seeq

*Aug 2023 - Jul 2024 - US company, remote from Poland, full-time*

- Prepared and processed invoices, financial summaries and other financial documents.
- Retyped and entered data from roughly 800-1,200 documents (invoices and similar) per month, full-time.

### Operations Assistant / Data & Research Assistant | Cuvva

*Apr 2022 - Jul 2023 - UK company, remote from Poland*

- Updated data, maintained documentation and supported internal processes.
- Collected and verified information.

### Customer Service Representative (call center and live chat) | T-Mobile

*Nov 2019 - Feb 2022 - On-site and hybrid, Poland*

- Handled customer inquiries in Polish by phone in a call center and by live chat: 80+ chats or 100+ calls per day, depending on volume.
- Collected and verified customer information.

## PERSONAL PROJECTS

Built with AI coding assistance, fully tested (Python, Java, SQL, JavaScript, REST API, Git): invoice reconciler (Python and Java), NBP converter, SQL analytics, bank statement parser and more (42 projects). Code available on request.

## INDEPENDENT CONTRACTOR

Polish sole proprietorship (JDG); B2B invoicing and tax settlement in Poland. Available full-time (8 hours a day), US and European time zones, immediate start.

## LANGUAGES

Polish (native) | English (C1, advanced: professional working proficiency, written and spoken)

## EDUCATION

Technical Secondary School (ZST), Częstochowa - 5-year IT technician programme, completed. English course, level C1, completed.
